

By The Numbers

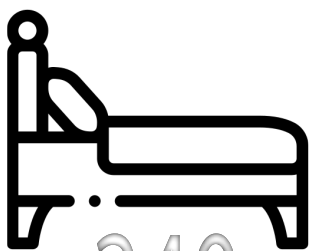

Intro By Katie Kucera

Another year for the books or the birds? Looking back and seeing what we have overcome and what we have endured for over two years is incredible. We certainly have stayed busy and kept our facilities full due to the multiple surges of COVID patients. We also saw some extreme pricing increases throughout the year that made us look at how we were doing things and even putting some things on hold. We continued to be agile and found new ways to overcome some of the increases while still providing the best care possible to our patients. It is going to be a long

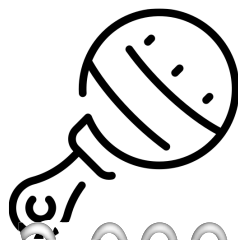

road ahead of us, but we are all committed to our community as we continue to maintain our financial stability and grow in areas of need.
