Appendix A: Secondary Data Scoring Tables

Topic Scores: Carson City

Results from the secondary data topic scoring can be seen in Tables 1 and 2 below. The highest scoring health needs in Carson City was Cancer with a topic score of 1.88.

TABLE 1: HEALTH TOPIC SCORES: CARSON CITY

Health Topic	Score
Cancer	1.88
Respiratory Diseases	1.74
Other Conditions	1.70
Heart Disease & Stroke	1.60
Prevention & Safety	1.60
Children's Health	1.52
Diabetes	1.51
Wellness & Lifestyle	1.51
Alcohol & Drug Use	1.33
Mental Health & Mental Disorders	1.33
Older Adults	1.33
Health Care Access & Quality	1.29
Women's Health	1.29
Immunizations & Infectious Diseases	1.26
Oral Health	1.26
Physical Activity	1.22

Quality of Life Topic	Score
Education	1.60
Environmental Health	1.51
Economy	1.42
Community	1.39

Topic Scores: Douglas County

Results from the secondary data topic scoring can be seen in Tables 3 and 4 below. The highest scoring health needs in Douglas County was Other Conditions with a score of 1.70.

TABLE 3: HEALTH TOPIC SCORES: DOUGLAS COUNTY

Health Topic	Score
Other Conditions	1.70
Women's Health	1.49
Cancer	1.45
Physical Activity	1.40
Alcohol & Drug Use	1.34
Heart Disease & Stroke	1.33
Mortality Data	1.26
Wellness & Lifestyle	1.21
Children's Health	1.19
Mental Health & Mental Disorders	1.16
Older Adults	1.11
Oral Health	1.11
Health Care Access & Quality	1.07
Prevention & Safety	1.07
Respiratory Diseases	0.86
Immunizations & Infectious Diseases	0.81
Diabetes	0.67

TABLE 4: QUALITY OF LIFE TOPIC SCORES: DOUGLAS COUNTY

Quality of Life Topic	Score
Economy	1.46
Community	1.41
Environmental Health	1.33
Education	1.25

Topic Scores: Lyon County

Results from the secondary data topic scoring can be seen in Tables 5 and 6 below. The highest scoring health needs in Lyon County was Oral Health with a score of 2.12.

TABLE 5: HEALTH TOPIC SCORES: LYON COUNTY

Health Topic	Score
Oral Health	2.12
Prevention & Safety	2.01
Mortality Data	1.93
Physical Activity	1.91
Respiratory Diseases	1.86
Health Care Access & Quality	1.83
Diabetes	1.82
Cancer	1.80
Children's Health	1.76
Alcohol & Drug Use	1.74
Mental Health & Mental Disorders	1.68
Wellness & Lifestyle	1.67
Women's Health	1.62
Other Conditions	1.48
Heart Disease & Stroke	1.37
Older Adults	1.36
Immunizations & Infectious Diseases	1.35

TABLE 6: QUALITY OF LIFE TOPIC SCORES: LYON COUNTY

Quality of Life Topic	Score
Education	1.87
Community	1.48
Environmental Health	1.44
Economy	1.40

Topic Scores: Storey County

Results from the secondary data topic scoring can be seen in Tables 7 and 8 below. The highest scoring health needs in Storey County was Physical Activity with a score of 1.74.

TABLE 7: HEALTH TOPIC SCORES: TERRELL COUNTY

Health Topic	Score
Physical Activity	1.74
Wellness & Lifestyle	1.40
Children's Health	1.37
Health Care Access & Quality	1.34
Cancer	1.19
Women's Health	1.10
Heart Disease & Stroke	1.10
Mental Health & Mental Disorders	1.08
Other Conditions	0.95
Mortality Data	0.89
Older Adults	0.89
Immunizations & Infectious Diseases	0.87
Respiratory Diseases	0.85
Alcohol & Drug Use	0.74

Appendix B: Community Input Assessment Tools

Online Community Survey

Carson Tahoe Community Survey

Thank you for participating in the Carson Tahoe Health Community Health Needs Survey. Your voice plays a vital role in helping us gain a clearer understanding of the health needs within our region. By sharing your insights and experiences, you contribute directly to identifying key health challenges and shaping programs that support community well-being. This survey is available in English and Spanish to ensure broad access and participation. Click the button above to take the survey in Spanish.

We appreciate your feedback!

By completing this survey, you will be entered into a raffle for one of these exciting prize packages, which include:

- Two-night stay in a double queen room at The Federal Hotel
- Two round-trip tickets from the V&T Railway Commission
- Two complimentary museum admission tickets to the Nevada State Railroad Museum
- Two free adult admissions to the Nevada State Museum
- A personal public art/mural tour & lunch with Eric Brooks
- Visit Carson City swag, including a blanket, mug, t-shirt, a set of art coasters, and other items

Thank you for your time and input!

In what zip code do you live? Please write in your five-digit zip code in the box below.

In what county do you live?

- ☐ Carson
- ☐ Douglas
- ☐ Lyon
- ☐ Storey
- ☐ Other (please specify)

What is your age?

To better understand the diverse backgrounds of our respondents, we kindly ask you to provide some information about yourself. This section includes questions about age, gender, ethnicity, education, and language. Your responses will help us analyze the data more effectively and ensure that our findings are representative of the entire population.

Which best describes your gender?

- ☐ Male
- ☐ Female
- ☐ Prefer not to say
- ☐ I self-describe as (Please add below):
-

Which of the following best describes you? Select all that apply.

- ☐ American Indian or Alaskan Native
- ☐ Asian or Asian American
- ☐ Black or African American
- ☐ Hispanic or Latino/Latine
- ☐ Middle Eastern or North African
- ☐ Native Hawaiian or other Pacific Islander
- ☐ White or Caucasian
- ☐ Prefer not to answer

What is the highest level of education you have completed?

- ☐ Some high school or less
- ☐ High school diploma or GED
- ☐ Some college, but no degree
- ☐ Associates or technical degree
- ☐ Bachelor's degree
- ☐ Graduate or professional degree (MA, MS, MBA, PhD, JD, MD, DDS etc.)
- ☐ Prefer not to say

What was your total household income before taxes during the past 12 months?

- ☐ Less than \$10,000
- ☐ \$10,000 to \$14,999
- ☐ \$15,000 to \$24,999
- ☐ \$25,000 to \$34,999
- ☐ \$35,000 to \$49,999
- ☐ \$50,000 to \$74,999
- ☐ \$75,000 to \$99,999

- ☐ \$100,000 to \$149,999
- ☐ \$150,000 to \$199,999
- ☐ \$200,000 and above
- ☐ Prefer not to answer

Including yourself, how many people currently live in your household?

- ☐ 1
 - ☐ 2
 - ☐ 3
 - ☐ 4
 - ☐ 5
 - ☐ 6 or more (please specify number)
-

What language do you mainly speak at home? Select one.

- ☐ Speak English
 - ☐ Speak Spanish
 - ☐ Speak Asian / Pacific Islander Language
 - ☐ Speak Indo-European Language
 - ☐ Speak other language (please specify)
-

Do you identify with any of the following statements? Select all that apply.

- ☐ I am a member of the LGBTQ+ community
- ☐ I am a veteran
- ☐ I am an immigrant or refugee
- ☐ I have experienced homelessness in the past year
- ☐ I have a mental health condition or learning disability
- ☐ I have a physical disability
- ☐ I was formerly incarcerated
- ☐ I provide care for an older adult or person living with a disability
- ☐ I do not identify with any of these
- ☐ Prefer not to answer

In this section, we aim to gather insights into your experiences and challenges related to accessing healthcare services. Your responses will help us identify barriers and opportunities for improving healthcare accessibility. Your input is invaluable in shaping better healthcare practices and programming.

Where do you get most of your health information? Select no more than three (3).

- ☐ Community organization/agency
- ☐ Doctor or healthcare provider

- ☐ Facebook, Instagram, TikTok or X (aka Twitter)
 - ☐ Family or friends
 - ☐ Health Department
 - ☐ Hospital
 - ☐ Internet (Other than social media)
 - ☐ Library
 - ☐ Newspaper/Magazine
 - ☐ Radio
 - ☐ Church or church group
 - ☐ School or college
 - ☐ T.V.
 - ☐ Workplace
 - ☐ Other (please specify)
-

How would you rate your overall **physical and mental health** over the past 12 months?

Physical Health

▼ Very Unhealthy ... Very Healthy

Mental Health

▼ Very Unhealthy ... Very Healthy

Which types of **healthcare services** have you received in the past 12 months? Check all that apply.

- ☐ I have not received any healthcare services in the past 12 months.
- ☐ In-person visits at a doctor's office
- ☐ Urgent care or walk-in clinics
- ☐ Emergency room
- ☐ Telehealth/virtual visits
- ☐ Community health centers or free clinics

How do you prefer to schedule medical appointments?

- ☐ Phone call
 - ☐ Online scheduling through a website or patient portal
 - ☐ Mobile app
 - ☐ Walk-in scheduling at the clinic
 - ☐ Text message
 - ☐ Other (Please specify)
-

How do you prefer to communicate with healthcare providers (other than scheduling appointments) between visits? Check all that apply.

- ☐ Phone call
- ☐ Secure messaging through a patient portal
- ☐ Text messaging reminders and updates
- ☐ In-person
- ☐ Other

In the past 12 months, was there a time when you needed **medical care or other health-related services** but did not get the services that you needed?

- ☐ Yes
- ☐ No, I got the services that they needed
- ☐ Does not apply, I did not need services

Select the reason(s) that you did not receive the **health care services** that you needed in the past 12 months. Select all that apply.

- ☐ Cost - too expensive/cannot pay
- ☐ No insurance
- ☐ Insurance not accepted
- ☐ Lack of personal transportation
- ☐ Lack of transportation due to bus schedule and/or drop-off location
- ☐ Hours of operation did not fit my schedule
- ☐ Child care was not available
- ☐ Wait is too long
- ☐ No doctor is nearby
- ☐ I did not know where to go
- ☐ Language barrier
- ☐ Cultural/religious reasons

- ☐ Lack of trust in healthcare services and/or providers
- ☐ Previous negative experience receiving care or services
- ☐ Lack of providers that I identify with (race, ethnicity, gender) or have training specific to my needs
- ☐ Other _____

In the past 12 months, was there a time when you needed **mental healthcare** but did not get the services that you needed?

- ☐ Yes
- ☐ No, I got the services that they needed
- ☐ Does not apply, I did not need services

Select the reason(s) that you did not receive the **mental healthcare services** that you needed in the past 12 months. Select all that apply.

- ☐ Cost - too expensive/can't pay
- ☐ No insurance
- ☐ Insurance not accepted
- ☐ Lack of personal transportation
- ☐ Lack of transportation due to bus schedule and/or drop-off location
- ☐ Hours of operation did not fit my schedule

- ☐ Child care was not available
- ☐ Wait is too long
- ☐ No doctor is nearby
- ☐ I did not know where to go
- ☐ Language barrier
- ☐ Cultural/religious reasons
- ☐ Lack of trust in healthcare services and/or providers
- ☐ Previous negative experience receiving care or services
- ☐ Lack of providers that I identify with (race, ethnicity, gender) or have training specific to my needs
- ☐ Other _____

What would make it easier for you to attend healthcare appointments? Check all that apply.

- ☐ More local providers or clinics
- ☐ More evening/weekend appointment availability
- ☐ Lower healthcare costs or better insurance coverage
- ☐ More telehealth options

- ☐ Better public transportation to healthcare facilities
- ☐ More culturally competent or language-accessible providers
- ☐ Other _____

This section focuses on understanding your health-related habits and practices. We are interested in learning about your physical activity, social networks, and other behaviors that impact your health. Your responses will provide valuable insights into common health practices and help us develop strategies to promote healthier lifestyles.

Which of the following social or community activities have you participated in during the past 12 months? (Select all that apply)

- ☐ Exercise Programs
- ☐ Community Walks
- ☐ Nature Hikes
- ☐ Bicycling
- ☐ Playing Sports
- ☐ Fishing
- ☐ Camping
- ☐ Cooking (e.g., cooking or nutrition classes)
- ☐ Art Programs
- ☐ Gardening
- ☐ Yoga
- ☐ Attending classes or workshops
- ☐ Going to concerts or shows
- ☐ Dancing
- ☐ Volunteering

- ☐ Swimming
- ☐ Other music-related community activities
- ☐ None of the above
- ☐ Other: _____

Has there been a time in the past 12 months when you were unable to engage in desired social or community activities?

- ☐ Yes
- ☐ No

Select the reason(s) that you could not engage in desired social or community activities. Select all that apply.

- ☐ Cost
- ☐ Transportation
- ☐ Limited public transportation
- ☐ Programs not available
- ☐ Schedule conflicts, not enough time, or programs not available at inconvenient times
- ☐ No Parental support
- ☐ Disabilities or medical conditions

☐

Other _____

How much time, on average, do you spend daily on screens (TV, tablets, phones, gaming, etc.)?

- ☐ Less than 1 hour
- ☐ 1-2 hours
- ☐ 2-4 hours
- ☐ 4-6 hours
- ☐ 6-8 hours
- ☐ More than 8 hours

How much time do you spend each week on quality time with others, such as family, friends, coworkers, or other community members?

- ☐ Less than 1 hour
- ☐ 1-2 hours
- ☐ 2-4 hours
- ☐ 4-6 hours
- ☐ 6-8 hours
- ☐ More than 8 hours

In a typical week, how many hours do you spend outdoors?

- ☐ Less than 1 hour

- ☐ 1-2 hours
- ☐ 2-4 hours
- ☐ 4-6 hours
- ☐ 6-8 hours
- ☐ More than 8 hours

How satisfied are you with your social relationships?

- ☐ Extremely dissatisfied
- ☐ Somewhat dissatisfied
- ☐ Neither satisfied nor dissatisfied
- ☐ Somewhat satisfied
- ☐ Extremely satisfied

In this section, we aim to understand the experiences, responsibilities, and challenges of those who are primary caretakers for children and/or adolescents (individuals under the age of 18). Your insights will help us identify the needs of young people and develop improved mental health resources and support systems.

Are you a primary caregiver for a child or children under the age of 18? (e.g., parents, grandparents, guardians.)

☐ Yes

☐ No

What is your relationship with the child or children you care for? Select all that apply.

☐ Parent (including birth parent, stepparent, or adopted parent)

☐ Grandparent

☐ Sibling

☐ Adoptive parent

☐ Legal guardian

☐ Foster parent

☐ Another familial relationship (aunt, uncle, older cousin, etc.)

☐ Another relationship (please specify):

How would you rate the overall **physical and mental health** the children you care for over the past 12 months?

▼ Physical Health

▼ Very Unhealthy ... Very Healthy

▼ Mental Health

▼ Very Unhealthy ... Very Healthy

In the past 12 months, was there a time when the children you care for needed **medical care or other health-related services** but did not get the services that they needed?

- ☐ Yes
- ☐ No, they got the services that they needed
- ☐ Does not apply, the child/children did not need services

Which of the following services were the children in your home not able to get in the past 12 months when they needed them? Select all that apply.

- ☐ Alcohol or other substance abuse treatment
- ☐ Dental care (routine cleaning or urgent care)
- ☐ Emergency care services
- ☐ Mental health services
- ☐ Nutrition services
- ☐ Prescription medications

- ☐ Routine care/treatment for ongoing or chronic condition – ex. allergies, respiratory conditions, diabetes
 - ☐ Scheduled vaccination(s)
 - ☐ Services for Special Needs
 - ☐ Sick visit/urgent care visit
 - ☐ Well child visit/check-up
 - ☐ Other (please specify)
-

Select the top reason(s) that children in your home did not get the **medical/health care services** that they needed in the past 12 months. Select all that apply.

- ☐ Cost - too expensive/can't pay
- ☐ No insurance
- ☐ Lack of personal transportation
- ☐ Lack of transportation due to bus schedule and/or drop off location
- ☐ Language barrier
- ☐ Hours of operation did not fit my schedule
- ☐ Child care was not available
- ☐ Wait is too long

- ☐ No doctor is nearby
 - ☐ I did not know where to go
 - ☐ Insurance not accepted
 - ☐ Cultural/religious reasons
 - ☐ Lack of trust in healthcare services and/or providers
 - ☐ Previous negative experience receiving care or services
 - ☐ Lack of providers that I or my child identify with (race, ethnicity, gender) or have training specific to my child's needs
 - ☐ Other (please specify)
-

Have the children (under the age of 18) in your care experienced any of the following **mental health** issues? Select all that apply.

- ☐ Autism
- ☐ Anxiety
- ☐ Bullying
- ☐ Child abuse/Child neglect
- ☐ Eating Disorders/body image concerns
- ☐ Social Pressures

- ☐ Substance Abuse (Drug, Alcohol, or vaping)
 - ☐ Loneliness/Feeling Disconnected
 - ☐ Suicide Ideation
 - ☐ Gender Identity
 - ☐ ADHD, Attention Issues
 - ☐ Depression
 - ☐ Self-Harm
 - ☐ Trauma/stress from home environment
 - ☐ Behavioral Issues (Aggression & Defiance)
 - ☐ No, the child/children have not faced any mental health issues
 - ☐ Other: (please specify below)
-

Have your children ever received any professional **mental health** care or support?

- ☐ Yes
- ☐ No

Where has your child received **mental health** support? Select all that apply.

- ☐ Pediatrician/primary care doctor
- ☐ School counselor or social worker
- ☐ Private therapist/psychiatrist
- ☐ Religious or community leaders
- ☐ Online or telehealth services
- ☐ None of the above

Overall, how effective have each of the following been in addressing your child's **mental health** needs?

	Not effective at all	Slightly effective	Moderately effective	Very effective	Extremely effective
Pediatrician/primary care doctor	☐	☐	☐	☐	☐
School counselor or social worker	☐	☐	☐	☐	☐

Religious or community leaders	☐	☐	☐	☐	☐
Online or telehealth services	☐	☐	☐	☐	☐

None of the above

☐ ☐ ☐ ☐ ☐

What barriers have you experienced in accessing **mental health** services for the children in your home? Check all that apply.

- ☐ I have not experienced any barriers in accessing mental health services
 - ☐ Lack of available providers or long wait times
 - ☐ Cost/insurance coverage
 - ☐ Transportation difficulties
 - ☐ Cultural concerns
 - ☐ Lack of school-based mental health services
 - ☐ Limited awareness of available services
 - ☐ Stigma/fear of judgment
 - ☐ Child refuses to participate in counseling
 - ☐ Other (please specify)
-

Have any of the children you care for experienced a serious **mental health** crisis in the past 12 months?

- ☐ Yes, more than once
- ☐ Yes, once

☐ No

Have you or your family used any of the following services in the past 12 months, in response to a child's **mental health** crisis?

- ☐ No, we did not use any crisis response services.
 - ☐ 988 Suicide & Crisis Lifeline
 - ☐ Nevada 211
 - ☐ Children's Mobile Crisis Response Team
 - ☐ 911
 - ☐ NAMI Helpline
 - ☐ Trevor Project
 - ☐ Crisis Support Services of Nevada
 - ☐ National Suicide Prevention Lifeline
 - ☐ Hospital Emergency Department
 - ☐ Other (please specify)
-

How effective were the services at resolving the crisis?

	Not effective at all	Slightly effective	Moderately effective	Very effective	Extremely effective
No, we did not use any crisis response services.	☐	☐	☐	☐	☐

What are the biggest contributions of stress to the children you care for? Select all that apply.

- ☐ Academic Pressure (e.g., schoolwork, tests, grades)
- ☐ Family Issues (e.g., tension at home, parental divorce, loss of a loved one)
- ☐ Social Challenges (e.g., making friends, bullying, fitting in at school)
- ☐ Major Life Changes (e.g., moving to a new home, getting a new sibling, changes in family dynamics)
- ☐ Health Concerns (e.g., personal health issues, concerns about the health of family members)
- ☐ Extracurricular Activities (e.g., balancing sports, hobbies, and other activities with schoolwork)
- ☐ Self-Esteem and Body Image (e.g., concerns about appearance, self-worth)
- ☐ Other: _____

In this section, we aim to understand the experiences, responsibilities, and challenges of professionals who provide care for children and/or adolescents, such as teachers,

coaches, youth ministers/pastors, and others. Your insights will help us identify the needs of young people and develop improved mental health resources and support systems.

Are you a professional who works primarily with children under the age of 18?

☐ Yes

☐ No

What is your profession?

Overall, how would you rate the **physical and mental health** of the children you work with over the past 12 months?

▼ Physical Health

▼ Mostly Unhealthy ... Mostly Healthy

▼ Mental Health

▼ Mostly Unhealthy ... Mostly Healthy

In the past 12 months, which of the following **mental health** issues have you observed among the children you work with? Select all that apply.

☐

Autism

☐

Anxiety

☐

Bullying

☐

Child abuse/Child neglect

☐

Eating Disorders/body image concerns

- ☐ Social Pressures
 - ☐ Substance Abuse (Drug, Alcohol, or vaping)

- ☐ Extracurricular Activities (e.g., balancing sports, hobbies, and other activities with schoolwork)
- ☐ Self-Esteem and Body Image (e.g., concerns about appearance, self-worth)
- ☐ Other: _____

How well are children's **mental health** needs being met in this community?

- ☐ Not well at all
- ☐ Slightly well
- ☐ Moderately well
- ☐ Very well
- ☐ Extremely well

ADVERSE CHILDHOOD EXPERIENCES The final question is about ACEs, adverse childhood experiences, that happened during your childhood. This information will allow us to better understand how problems that may occur early in life can have a health impact later in life. This is a sensitive topic, and some people may feel uncomfortable with these questions. If you prefer not to answer these questions, you may skip it. For this question, please think back to the time **BEFORE** you were 18 years of age. From the list of events below, please check the box next to events you experienced **BEFORE** the age of 18. Select all that apply.

- ☐ Lived with anyone who was depressed, mentally ill, or suicidal
- ☐ Lived with anyone who was a problem drinker or alcoholic
- ☐ Lived with anyone who used illegal street drugs or who abused prescription medications
- ☐ Lived with anyone who served time or was sentenced to serve time in prison, jail, or other correctional facility
- ☐ Parents were separated or divorced
- ☐ Parents or adults experienced physical harm (slap, hit, kick, etc.)
- ☐ Parent or adult physically harmed you (slap, hit, kick, etc.)
- ☐ Parent or adult verbally harmed you (swear, insult, or put down)
- ☐ Adult or anyone at least 5 years older touched you sexually
- ☐ Adult or anyone at least 5 years older made you touch them sexually
- ☐ Adult or anyone at least 5 years older forced you to have sex
- ☐ None of the above

Is there anything more you would like to share about how Carson Tahoe Health can better serve your community's health needs?

Thank you for taking the time to complete the Carson Tahoe Health Community Health Survey. If you would like to enter a raffle please click the link below. Your survey responses will remain anonymous and will not be linked to the information you entered for the raffle.

Click here to enter the raffle for a chance to receive one of the following packages:

- Two-night stay in a double queen room at The Federal Hotel
- Two round-trip tickets from the V&T Railway Commission
- Two complimentary museum admission tickets to the Nevada State Railroad Museum
- Two free adult admissions to the Nevada State Museum
- A personal public art/mural tour & lunch with Eric Brooks Visit Carson City swag, including a blanket, mug, t-shirt, a set of art coasters, and other items

Thank you!

Focus Group Questions (Three sets of questions)

First Responders

Understanding of Mental Health

1. What does mental health mean to you?
 - Probe: Thinking about the community you serve/the patients you serve, what habits or behaviors have you noticed that seem to impact on their mental well-being (e.g., stress, work, screen time, isolation, routines)?
 - Probe: What are some things that make it hard for them to talk about their mental health with others, adults, or peers?

Youth Mental Health in the Community

2. In your opinion, what are the top mental or behavioral health concerns affecting children and youth in your community?
3. Which populations or neighborhoods seem to be most impacted? Are there unique challenges for low-income, uninsured, or racially diverse families with disabilities?
 - Probe: Are there specific populations or neighborhoods where mental health concerns are more prevalent?

Access and Barriers to Care

4. What mental health issues do you most frequently encounter in the community?
5. What are the biggest barriers to accessing mental health care or social services for individuals/families?
6. How do community members typically respond to mental health crises?
7. What gaps do you see in the community's mental health services?

Support Needs and Resources

8. What services or programs do you think would most benefit the mental health of the community?
9. How can the hospital better support first responders/clinical staff in managing their mental health?
10. What partnerships (e.g., with schools, law enforcement, nonprofits) could strengthen mental health support in the area?

Community Awareness and Stigma

11. In your opinion, how aware is the general public about mental health issues?
12. Do you think there is stigma around mental health in the community? How does it manifest?
13. What role do you think first responders can play in reducing mental health stigma?

Final Thoughts

Is there anything else you think we should consider when assessing mental health needs in this community?

Parents/Caretakers

Understanding of Mental Health

- What does mental health mean to you?
- Probe: What habits or behaviors have you noticed that seem to impact your child's or your mental well-being (e.g., screen time, isolation, routines)?
- Probe: What are some things that make it hard to talk about your mental health with adults or peers?

Experience as a Parent or Caregiver

- How has being a caregiver affected your mental health?
- Probe: Can you share a moment or experience that made you realize the emotional impact of caregiving on you?

Youth Mental Health in the Community

- In your opinion, what are the top mental or behavioral health concerns affecting children and youth in your community?
- Probe: Can you tell me about a time when you or someone you know struggled with one of these issues?
- Which populations or neighborhoods seem to be most impacted? Are there unique challenges for low-income, uninsured, or racially diverse families with disabilities?
- Probe: Have you seen or heard people at your school or online talking about these challenges? What do they say?

Access and Barriers to Care

- What are the biggest barriers to accessing mental health care or social services for your family?
- Probe: Can you share a time when you tried to get help and ran into a challenge?

Support Needs and Resources

- What kinds of support would help you as a caregiver (e.g., parent education, peer support groups, therapy access)?
- Probe: What kinds of support, formal or informal, have been most helpful?
- Probe: What types of support do you wish were available in your community that does not exist now?
- Probe: Have you seen or used any mental health resources at school or online?

Lifestyle, Coping, and Resilience

- How do you and your family cope with stress, anxiety, or feeling overwhelmed?
- Probe: What daily habits or routines help you feel grounded or supported when things get stressful?
- Probe: What do you think helps someone to stay mentally strong even when life is tough?

Final Thoughts

Is there anything else you think we should consider when assessing mental health needs in this community?

Youth

1. What does mental health mean to you?
2. What habits or behaviors have you noticed that seem to impact your mental health/well-being (e.g., screen time, isolation, routines)?
 - a. How do school, social media, or family situations affect your mental health?
 - b. What are some things that make it hard to talk about your mental health with adults or peers?
3. How do you recognize signs of stress, anxiety, or social isolation in yourself?

- a. How do you and your family cope with stress, anxiety, or feeling overwhelmed?
- i. Probe: What role does exercise, walking, moving, spending time in nature/outside, music, etc., play in your life? What daily habits help you feel healthy and stress-free?
- b. How much time do you spend a day playing games, watching television, and/or on your phone?
- 4. What are the biggest mental or emotional challenges you and your friends deal with?
 - a. What groups seem to be most impacted? Are there specific groups that experience more mental health issues than other groups?
- 5. Have you ever wanted help but did not know where to go or who to ask?
 - a. What would make it easier for young people like you to get support?
 - b. What would make it hard or challenging for you to get support/services/resources?
- 6. Are there any community/after-school programs where you go to talk about your feelings or get support when you are feeling stressed or overwhelmed?
- 7. What can help improve your mental health?
 - a. What is one thing that would make a big difference in your life right now?
 - b. If you could design the perfect mental health support system, what would it look like?

Is there anything else you would like to share regarding mental health needs in the community?

Focus Group Themes by Group

Focus Group	Understanding of Mental Health	Behavior/Influences	Challenges	Concerns Affecting Children/Youth	Barriers to Care	Support/Resources Needed
First Responders	A spectrum that affects everyone differently. The ability to cope with life's challenges and stressors. Not just about diagnoses like depression or anxiety, but also about coping skills and support systems. Equally important as physical health, requiring regular attention and care (e.g., "mind gym" analogy). Something that everyone experiences, not just those in crisis.	Social media exposure at an early age (e.g., 3rd–4th graders on Snapchat). Lack of parental supervision and boundaries. Substance use, especially high-potency THC edibles, causes psychosis. Poor coping mechanisms modeled by parents (e.g., substance use, aggression). Bullying, both in-person and online. Single-parent households are struggling with time and resources. Children mimicking adult behaviors in dysfunctional homes.	Stigma and fear of judgment, especially among adults. Cultural beliefs that deny the existence of mental health issues (notably in some Hispanic families). Fear of consequences, such as being hospitalized or getting parents in trouble. Lack of trust in counselors or professionals who have not shared similar experiences. Breakdown in parent-child relationships, leading kids to confide in peers instead.	Depression and anxiety. Suicidal ideation and self-harm. Substance use, especially marijuana and vaping. Behavioral issues in younger children (e.g., aggression, violence). Sexual exploitation (e.g., trading favors for drugs). Identity struggles, including sexuality and lack of parental support. Trauma, especially in children raised by grandparents due to parental substance abuse.	Lack of local resources, especially inpatient and intensive outpatient (IOP) services. Long waiting times and limited availability of providers. Geographic isolation—families must travel to Reno or Las Vegas for care. After-hours care is nearly nonexistent. Financial barriers, including lack of insurance or high co-pays. Overwhelmed systems, with too few providers for the demand.	24/7 mobile crisis units with law enforcement and mental health professionals. More in-patient and IOP facilities, especially for youth. Parent education programs on mental health and behavior management. Faith-based partnerships to support mental wellbeing. Better hospital staff training on mental health and safety protocols. Hire Community navigators to help families access services and support.
Clinical Staff	Access to resources Having peace of mind	Lack of access to services and lack of Transportation	Housing shortages, long waiting list for housing	Bullying (cyber and in-person)	Lack of transportation Financial constraints	Parenting support Shelters and housing

	Having agency and autonomy	Teen pregnancy and unstable families Substance use Education gaps Environmental barriers to exercise Cultural disconnects and generational trauma	Funding cuts to nonprofits Church-based support with limitations Technology and accessibility gaps	Lack of school resources Poverty and financial instability Social media addiction Violence normalization	Provider shortages Interstate cooperation issues	Youth engagement centers Technology education for seniors Transportation improvements
Douglas County Residents (Adults/Caregivers)	Mental health is both visible and hidden. Historical trauma and generational cycles. Nature vs. nurture in mental health development.	Overuse of technology and video games. Poor nutrition and lack of exercise. Isolation and lack of engagement. Mental health issues are affecting families, particularly single parents, and grandparents. Children are vulnerable to the impact of mental health issues, leading to trauma and stress Families are struggling to cope with the emotional and practical challenges of mental health	Cultural misidentify and disconnection Cultural and language barriers are significant obstacles to accessing services and resources, particularly for Spanish speaking populations. The lack of bilingual staff and resources exacerbates these challenges, making it difficult for people to navigate systems. Emotional exhaustion and isolation for caregivers	Expulsion without addressing root causes. Lack of mental health courts or school-based support. Pressure on schools to act as mental health providers. Vaping, marijuana, alcohol, and emerging synthetic drugs. Self-medication for anxiety and depression.	Lack of respite and support care for caregivers Few Medicaid-accepting providers. Long waitlists and limited hours. Lack of Spanish-speaking clinicians. People express difficulty in accessing mental health resources and support. There is a need for more accessible and understandable resources, such as Medicaid paperwork assistance.	Equine therapy and traditional practices. Youth-led initiatives and community engagement. Need for psychiatric case management and mental health courts. Need for school-based mental health centers. More for transportation and mobile services. Youth and family-centered programming. People value community support and resources, highlighting the importance of having accessible help for those in need.

				Lack of prevention programs and parental awareness. Mental health issues and substance abuse are significant concerns in the communities, with people expressing worry about the prevalence of these issues. The stigma surrounding mental health and substance abuse is a barrier to seeking help and support. The feedback highlights the need for more resources and services to address these issues effectively.	Support systems, including family and community, are crucial but sometimes insufficient. People highlight the challenges faced by marginalized communities in accessing healthcare services, including language barriers and financial constraints. There is a need for more accessible and culturally sensitive healthcare services that cater to the specific needs of diverse communities. People express concern about the financial burden of healthcare services, particularly for those who cannot afford them.	Community connections and support groups are seen as crucial for mental health, providing a sense of belonging and assistance. There is a desire to expand and sustain community programs that foster support and connection among community members. People emphasize the importance of supporting families and youth, recognizing the interconnectedness of family dynamics and mental health. There is a need for comprehensive support that extends beyond individual services to include family and community involvement. People express concern for the struggles faced by families and youth, highlighting the need for targeted support and resources.
--	--	--	--	--	--	--

Lyon County Residents (Adults/Caregivers)	Deeply connected to daily routines, emotional regulation, and social interactions.	Lack of routine and sleep significantly affects behavior and mood (Youth)	Stigma remains a barrier, especially among adults and older generations.	Social media and screen time.	Long wait times for appointments (e.g., months out).	Community health navigators or caseworkers to help families find and access services.
	Affected by external influences like peers, social media, and home environment.	Peer influence, especially in lower-income areas, can introduce negative behaviors (Youth)	Fear of judgment or being seen as “crazy” prevents people from seeking help.	Home environment instability.	Insurance issues, especially with Medicaid or dual coverage.	More local providers, including mental health professionals and specialists.
	Often misunderstood or stigmatized, especially in past generations or among those unfamiliar with mental health challenges.	Screen time and social media are major concerns—linked to mood swings, comparison, and exposure to inappropriate content (Youth)	Uncertainty about what is normal (especially in children) makes it hard for parents to know when to seek help.	Trauma from major life events (e.g., car accidents, loss of pets, family conflict).	Lack of local providers, especially specialists.	Free or low-cost support groups (e.g., for parenting, trauma, single parents, grief).
			Lack of knowledge about where to go or who to talk to for support.	Lack of emotional regulation skills and difficulty identifying emotions.	Cost of care, especially for those not qualifying for aid but unable to afford private services.	Childcare options during appointments or support groups.
					Lack of awareness of available resources.	Community events that include mental health resources and normalize help-seeking.
					Exhaustion and discouragement from navigating the system.	Online counseling options with flexible hours.
						Routine, structured activities for children and families to reduce stress.
Douglas County (Spanish)	Mental health issues lead to feelings of isolation and have a profound impact on overall wellbeing.	Intergenerational trauma Parenting and family dynamics	Fear of judgment and lack of understanding as significant barriers to seeking mental health support.	Bullying is a significant issue in schools and online, with severe	Trust issues and lack of information contribute to the challenges in seeking mental health help.	Communication-open and honest Need for trusted relationships and

	Strong connections are made between mental health and various aspects of life, including relationships and daily functioning. Pervasive nature of mental health issues affecting both individuals and their families.		Sense of self doubt and comparison with others that prevents individuals from acknowledging and addressing their mental health issues. Societal and personal barriers contribute to the underreporting and undertreatment of mental health problems.	consequences for the victims. Ongoing psychological distress due to bullying.	Financial constraints and lack of resources are significant barriers to accessing mental health services. Language barriers are a significant obstacle for Spanish speaking individuals seeking mental health services. The lack of therapists who speak Spanish creates difficulties in accessing mental health support. Transportation issues, particularly in rural areas, are a major barrier to accessing mental health services. Rural areas often rely on others for transportation, limiting their ability to seek help. Lack of reliable transportation options makes it difficult for individuals to attend mental health appointments.	environments where people feel comfortable talking about mental health Support groups Affordable and convenient options More traditional, human centered approaches to mental health support Opportunities to exercise (walking, singing, praying) or other therapeutic activities
--	---	--	--	---	---	---

					High costs and limited availability. Not adequately funded or accessible to those in need. Negative experiences with mental health professionals, feeling that they did not receive sufficient help. Lack of information about mental health services Unaware of services and availability of services	
Youth	A reflection of how you are doing emotionally, whether you feel okay, proud, or need help. Self-awareness and empathy—being aware of your own state and that of your friends. Something that was once “unapproachable” but is becoming easier to talk about.	Sports and physical activity: Seen as a positive outlet for stress and a source of happiness. Social media: Mixed impact—can be uplifting or toxic; often addictive and isolating. School pressure: Grades, college expectations, and comparisons to siblings.	Fear of judgment or being seen as weak or different. Peer stigma: Mental health is often treated as a joke in middle/high school. Lack of trust: Concerns about friends turning on them or not being supportive. Generational gaps: Adults may not	Anxiety and depression: Especially related to school, social pressure, and family dynamics. Social isolation: Post-COVID reintegration challenges.	Lack of awareness: Parents and youth are unsure where to go or who to call. Stigma: Especially among peers and in some family cultures. Limited school resources: Overworked counselors and psychologists.	Peer-based support groups: Youth-led or youth-peer specialists in schools. Youth leadership councils: To design and lead mental health initiatives. Community events that include mental health resources and normalize help-seeking.

	A spectrum of experiences, not necessarily tied to a diagnosis.	Peer interactions: Subtle comments, bullying, or exclusion can deeply affect self-esteem. Lack of routine: Increases stress and emotional instability. Sleep and screen time: Overuse of screens and lack of sleep were linked to mood swings and anxiety.	understand or relate to current youth experiences. Cost and access: Therapy is expensive and often inaccessible. Lack of peer-based support: Youth want to talk to others their age who understand.	Self-harm and suicidal ideation: Mentioned in context of peer experiences. Substance use: As a coping mechanism when support is lacking. Body image and self-esteem: Influenced by social media and peer comparison. Pressure to fit in: Maintaining social status or image.		Routine, structured activities for children and families to reduce stress. More school-based programs and services: Including trained coaches and teachers.

Recommendations

Improvement

- **Access & Availability**
 - Expand provider networks through partnerships or telehealth.
 - Invest in workforce development to train and retain mental health professionals.
 - Offer mobile clinics or pop-up services in underserved areas.
 - Streamline intake and referral processes to reduce waiting times.
- **Financial Barriers**
 - Provide sliding scale fees or financial assistance programs.
 - Help families navigate insurance and Medicaid enrollment.
 - Advocate policy changes to expand Medicaid coverage and reimbursement.
 - Partners with housing organizations address housing instability as part of care.
- **Information & Awareness**
 - Launch awareness campaigns using social media, schools, and community centers.
 - Create centralized resource hubs (websites, hotlines) for service navigation.
 - Offer workshops on mental health literacy for parents and youth.
 - Use peer navigators or community health workers to guide families
- **Geographic & Transportation**
 - Provide transportation vouchers or ride-share partnerships.
 - Offer virtual services to reduce travel needs.
 - Coordinate care closer to home through satellite offices or school-based services.
- **Cultural & Social Barriers**
 - Train staff in cultural humility and trauma-informed care.
 - Engage community leaders to reduce stigma and build trust.
 - Create safe spaces for youth to talk about mental health.
 - Develop culturally relevant outreach materials and programs.
- **Language Barriers**
 - Hire bilingual clinicians and interpreters.
 - Translate materials into commonly spoken languages.
 - Partner with cultural organizations to improve outreach and trust.
- **School & Youth Services**
 - Increase funding for school counselors and psychologists.
 - Integrate mental health education into school curricula.
 - Create referral pathways between schools and community providers.
 - Support youth-led initiatives to promote mental wellness.

Improved Engagement

Flexible Scheduling

- **Action:** Offer programs at varied times (evenings, weekends) and consider on-demand or virtual options.

Accessibility of Disabilities

- **Action:** Ensure venues are ADA-compliant, provide assistive services (e.g., sign language interpreters), and design inclusive activities.

Cost Reduction

- **Action:** Introduce sliding scale fees, scholarships, or free community events.

Program Availability

- **Action:** Conduct community interest surveys to expand offers that reflect local needs and preferences.

Parental Support

- **Action:** Create family-friendly programs and outreach efforts to engage parents and guardians.

Transportation Improvements

- **Action:** Partner with local transit authorities for better routes, offering shuttle services, or coordinating carpools.

Appendix E: Supplemental Data

Improved health behaviors and academic success

Higher academic performance and educational attainment are associated with healthier behaviors—such as better diet, more physical activity, and lower substance use—while risky health behaviors often correlate with poor grades.

Source: [Health and Academics | Healthy Schools | CDC](#)

Educational attainment is a strong predictor of health across the lifespan. Higher education levels are linked to lower rates of heart disease, diabetes, depression, and longer life expectancy.

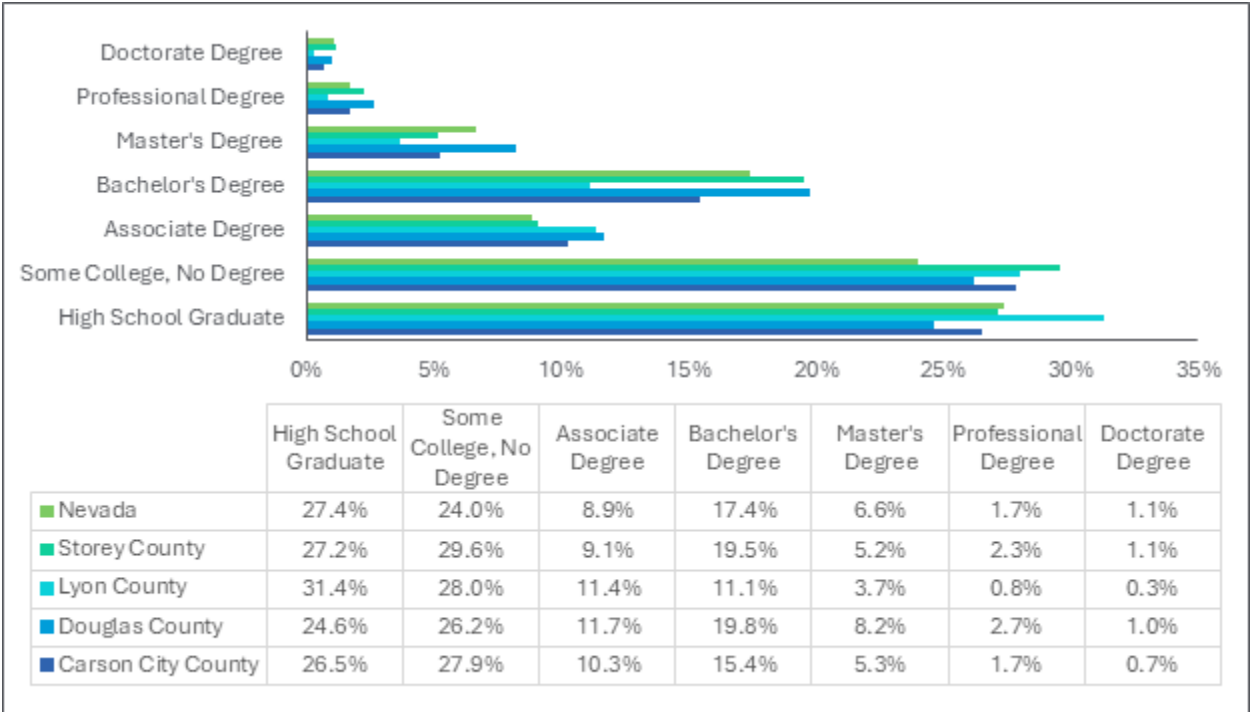

Source: [Education Access and Quality - Healthy People 2030 | odphp.health.gov](#)

High-quality early childhood and school-based programs promote social development, reduce future disease risk, and mitigate health disparities.

Under Housing

Safe and affordable housing is an essential component of healthy communities, and the effects of housing problems are widespread. Residents who do not have a kitchen in their home are more likely to depend on unhealthy convenience foods, and a lack of plumbing facilities increases the risk of infectious disease. Research has found that young children who live in crowded housing conditions are at increased risk of food insecurity, which may impede their academic performance. In areas where housing costs are high, low-income residents may be forced into substandard living conditions with an increased exposure to mold and mildew growth, pest infestation, and lead or other environmental hazards.
